

Radiantmax Underfloor Systems

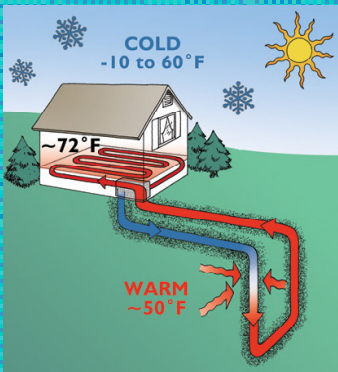

Radiantmax Floor Heating

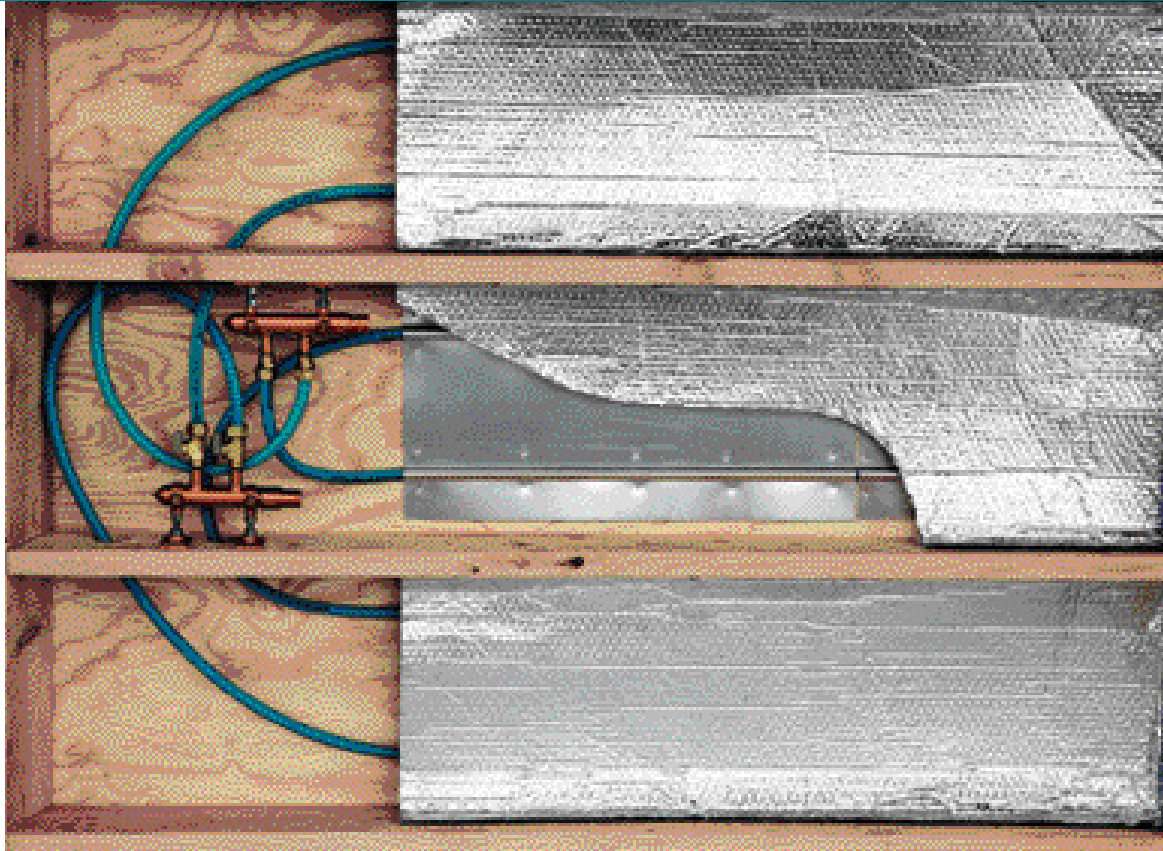

Solar Hydronic

Tankless Hot Water

Geothermal

- Great for retrofits in existing buildings
- Easy to install
- Highest output available for underfloor applications
- Up to 49% more efficient than other underfloor solutions
- Faster response time

RADIANTMAX US UNDERFLOOR SYSTEMS are designed to install hydronic radiant heating between the joists under an existing floor. Installed beneath the subfloor, we include our heat transfer plates and reflective insulation underneath to direct the heat upward.
